		Grade max should be logical (<i>clipped</i>)		ex: Alphabet item: Box says Ages 4+		Enter as a4 to _[grade#] (so it doesn't match high school query for language arts)						CounterPoint	
		Choking Hazards		ex: Stickers: No age given on item		Enter as age all (so that it comes up in queries) Enter choking hazards as instructed. Website will modify text to indicate ages 3+						CP+ Magento grade_internal
